

REPORT- " The Digital Connect"- A Webinar on Optimising Fertility in Obese PCOS

The **PCOS Society** of India and the Indian Society for Assisted Reproduction (**ISAR**) jointly conducted an International Webinar on "Optimising fertility in Obese PCOS" on 15th July 2017. The Webinar was held between 3.00pm to 5.00pm at Hotel Grand Hyatt, Mumbai - which was the main hub. 35 cities were connected live with the Mumbai hub. This Webinar was supported by an educational grant from Alkem.

Prof. Fabio Facchinetti, as our international faculty, was connected live from Italy and was joined by a panel of distinguished gynaecologists from India- **Dr Duru Shah, Dr Ameet Patki , Dr Nandita Palshetkar** and **Dr Sujata Misra**

The Webinar began with **Dr Duru Shah - Founder President of PCOS Society**, delivering her welcome speech and setting the tone with an introduction on Obesity and PCOS, for an informative and engaging session on Optimising fertility in Obese PCOS.

This was followed by an interesting case presentation by her on Obese PCOS patient with Infertility which was discussed by the experts *Prof. Fabio Facchinetti, Dr Patki , Dr Palshetkar, and Dr Misra.*

After this impactful case presentation , the national and international faculties engaged in a very interactive panel discussion on various aspects of diagnosis and management of Infertility in Obese PCOS , followed by an engaging round of Q& As involving all the webcast locations.

A total of 1800 delegates participated in the Webinar! 1250 from the 35 cities and 550 online viewers.

The overall feedback obtained from the participants was very encouraging and positive, one that would enable them to improve their clinical practice.

The entire program has been video graphed, edited and archived on the PCOS society website.
